Effectively Incorporating Invisalign into Minimally Invasive Digital Dentistry

Date: Thursday, September 26th, 2019
Meeting: 6:00pm – 9:00pm
Speaker: Dr. Monik Vasant
Location: Beverly Hills Dental Lab- 9100 Wilshire Blvd #400w, Beverly Hills, CA 90212
CE: 2 CE Credits
Additional Info: Eric Lopez – elopez@aligntech.com – 914-275-8097

Register Today! <http://www.cvent.com/d/4yq4wm>

Registration Fee: \$29. Space is limited. Everyone who plans to attend will need to register.

Study Club Description:

Learn how a minimally invasive interdisciplinary approach, that combines a digital workflow and tooth movement ahead of restorative procedures, creates better aesthetic outcome and longer lasting restorations.

During the session you will:

- Appreciate the efficiencies created, ease of use, and profitability associated with integrating Invisalign and Invisalign Go therapy into your practice
- Understand the Align, Bleach, Bond principle and its benefits versus a restorative only approach
- Hear suggestions for orthodontic treatment planning using the iTero digital scanner, Invisalign and Invisalign Go system
- Learn how intra-oral scanning and pre-restorative tooth movement allow for an easier, more efficient restorative approach

Dr. Monik Vasant is a highly experienced clinician with a special interest in minimally invasive aesthetic dentistry. He has trained under many of the worlds leading clinicians and has a postgraduate Masters in Aesthetic & Restorative dentistry. He is the director of the Freshdental clinics with sites in Central London and Greater Manchester. He lectures globally on many aspects of minimally invasive aesthetic dentistry with a specific interest in adhesive dentistry. His two day composite masterclass course "Totally Composite" is one of the leading courses of its type and is held throughout the UK and internationally. He also runs a yearlong postgraduate course on all aspects of minimally invasive aesthetic dentistry entitled "Totally Aesthetics". He is a global key opinion leader for several dental companies and a clinical speaker for Invisalign. He has appeared several times in the UK print media and television. He has also authored his own book Smile Art and contributed chapters in all three versions of the "Messages from Dental Masters" book series.
