

MASTERING DENTAL MORPHOLOGY FOR DIRECT COMPOSITE RESIN RESTORATION

MICHEL MAGNE MDT

2-DAY HANDS-ON WORKSHOP
JANUARY 12 & 13, 2018

COURSE OUTLINE

This course will be an intensive hands on experience for all clinicians and technicians wishing to refine or enhance their knowledge on tooth morphology, smile concept and the understanding of diagnostic quality provisionals in acrylic resin.

INSTRUCTOR

MICHEL MAGNE MDT

YOU WILL LEARN

- Modern concepts in restorative dentistry with new solutions.
- How to design a smile in wax.
- How to create a composition of a balanced, harmonic smile.
- To observe nature and learn about tooth morphology.
- How to transform the wax design into natural like diagnostic provisionals in acrylic.
- Importance of diagnostic provisional as step within the treatment.

** Among these, the philosophy of work of Michel Magne will be discussed extensively regarding key steps and diagnostic approaches to achieve ultimate esthetics.**
